Viscom Open House- No CA Office- Dec 2011

RCA Marketing, a Southern CA based representative for Viscom USA extends an invitation to visit the No CA Sales and Customer Applications Center on Dec 1, 2011 at Viscom's new location in Santa Clara, CA. Viscom has X-ray, Bench Top AOI, and Inline AOI systems at this facility. All other Viscom products including AOI for Wire Bond inspection, and AOI/ AXI combo for PCB inspection is available at the company's GA facility.

Viscom USA, based in Norcross, GA provides German engineered **optical testing systems** including AOI and X-ray systems. Viscom has a well earned reputation for superior performance for applications such as Semi-conductor bond inspection, Printed Circuit Assembly, and Precision Parts. Viscom's products are widely recognized and used for high reliability applications in the aerospace, medical, automotive, and semi-conductor industries. Viscom supports its North American customers from three locations strategically located in the U.S. and Mexico.
